**THIS INTERLOCAL AGREEMENT** (the "Agreement") is made and entered into effective as of the <u>5th</u> day of <u>August</u>, 2024, by and between EL PASO COUNTY, TEXAS (the "County") and the CAMINO REAL REGIONAL MOBILITY AUTHORITY ("Authority"), (collectively, the "Parties"), for the purposes described herein.

#### WITNESSETH:

WHEREAS, the County is a political subdivision of the State of Texas; and

**WHEREAS**, the Authority is a regional mobility authority created pursuant to the request of the City of El Paso and operating pursuant to Chapter 370 of the Texas Transportation Code (the "RMA Act") and 43 Tex. Admin. Code §\$26.1 *et seq.* and is a body politic and corporate and political subdivision of the State; and

**WHEREAS**, Chapter 791 of the Texas Government Code provides that any one or more public agencies may contract with each other for the performance of governmental functions or services in which the contracting parties are mutually interested; and

**WHEREAS**, Section 370.033 of the RMA Act permits the Authority to enter into an agreement under which the Authority may acquire, plan, design, construct, maintain, repair, or operate a transportation project on behalf of another governmental entity if the transportation project is located in the Authority's area of jurisdiction or in a county adjacent to the Authority's area of jurisdiction; and

**WHEREAS**, the County requests the Authority to provide certain transit operations services, as more fully enumerated in this Agreement (the "Project"), located in El Paso County which is within or adjacent to the Authority's area of jurisdiction; and

**WHEREAS**, the County and Authority now desire to enter into this Agreement to allow for the Authority to complete the services requested by the County for the Project; and

**NOW, THEREFORE**, in consideration of the mutual covenants and agreements herein contained, the undersigned Parties agree as follows:

#### I. FINDINGS

**A. Recitals.** The recitals set forth above are incorporated herein for all purposes and are found by the Parties to be true and correct. It is further found and determined that the Parties have authorized and approved the Agreement by resolution or order adopted by their respective

governing bodies, and that this Agreement will be in full force and effect when approved by both Parties.

**B.** Overview of the Project. The County and Authority have agreed to cooperatively develop various major transportation projects, including the Project, due to the mutual benefit to each Party and the benefits to the residents of the County. The Project, as more fully defined in **EXHIBIT A** to this Agreement, consists of those activities required for the Authority to provide certain transit operations services to the County for a five (5) year period. The Project responsibilities of each Party and Project budget are more fully enumerated within **EXHIBIT B** and **EXHIBIT C** of this Agreement.

### II. DUTIES AND RESPONSIBILITIES OF THE AUTHORITY

- **A. Project Services.** Subject to the terms of this Agreement, the Authority agrees and is hereby authorized to use funding from the County, or such other lawfully available funds designated from time to time, to provide all or a portion of the funding necessary for the development of the Project identified in **EXHIBIT A**.
- 1. Timeline for Commencement and Completion of Work. Commencement of work on the Project shall begin when the County Representative (as defined in Section IV below) issues a written Notice to Proceed to the Authority for the Project. No later than fifteen (15) days from Authority receipt of a Notice to Proceed, the Authority will initiate the process to commence work on the Project, as more specifically described in **EXHIBITS A, B, and C**. Project-related services, including any applicable phasing of such work, will be completed in accordance with the schedule developed between the County and the Authority.
- **2. Scope of Work.** Specific elements of the work required for the Project and the responsible party for the performance of such work are set forth in **EXHIBIT B** to this Agreement. Such services will be provided by the appropriate party within the jointly developed schedule referenced above.
- 3. **Project Budget.** The initial budget for the Project is set forth in **EXHIBIT** C to this Agreement ("Project Budget"). The budget identified within **EXHIBIT** C includes administrative costs related to the Project. Costs not actually incurred will be refunded or credited back to the County. The Parties will work together to attempt to minimize the actual costs as reflected in the Project Budget, and in no event shall the cash disbursements by the Authority exceed such Project Budget, absent the written agreement of the Parties.
- **B. Authority and County Cooperation.** The Parties shall cooperate in the development of the Project such that the Project is most effectively and efficiently developed.
- 1. Inspections. The County and its authorized representatives may observe or inspect all work done and materials furnished for the Project at reasonable times and places. If either Party believes such Project is not being developed as originally contemplated, the Parties' designated representatives shall meet to discuss appropriate actions to ensure that any defects in the Project or deviations are remedied.

- 2. Budget Overruns. In the event the costs of the Project funded in whole or in part from County funds exceed, or due to a change in circumstances during development of such Project are expected to exceed, the amount specified in the Project Budget and other lawfully available and designated funds, the Parties, through their respective designated representatives, will work together to identify the additional funding necessary for the Project. In the event additional funds cannot be identified to address such increased costs, the Parties shall work together to amend the scope of the Project to fit within the available funds or to otherwise address the Project funding shortfall.
- 3. Authority Performance Measures. Some of the services being provided pursuant to this Agreement are an extension of the services being provided to the Authority under agreements with contractors or under consulting agreements with third-party professionals. As such, the Authority shall ensure, through its agreements with such contractors and third-party professionals, that the same performance measures are established and maintained for the performance of the services delivered on the Project pursuant to this Agreement as are applicable to work performed by such contractors and third parties on other Authority Projects. The Authority shall enforce such measures and standards on the County's and Authority's behalf, and the Authority shall not agree to modify performance measures, as they may relate to the services contemplated herein, without the prior written consent of the County.
- **C. Reports to the County.** The Authority shall, at such times and in such form as the County may reasonably request, furnish periodic information concerning the status of the Project and the performance of the Authority's obligations under this Agreement. To the extent requested by the County, the Authority shall make an annual report to Commissioners Court on the Project. Such annual report shall include information on the current construction and financial status of the Project and the state of the Authority as a public entity in general.
- **D.** Accounting. The Authority shall use diligence to ensure that each distribution of Project funds is for proper and documented expenditures. Complete books and records shall be maintained by the Authority of disbursements for payments required in this Agreement. All such books and records shall be deemed complete if kept in accordance with the Governmental Accounting Standards Board's principles and in accordance with the provisions of the RMA Act. Such books and records shall be available for examination by the duly authorized officers or agents of the County during normal business hours upon request made not less than five (5) business days prior to the date of such examination. In addition, the Authority shall coordinate with the County's Auditor's Office to provide information and documentation necessary for the County to complete its annual books, records and reports for each fiscal year ending September 30<sup>th</sup> during which: (1) Project funds are/were distributed for the Project; (2) Project warranties are/were in effect; and/or (3) Project claims are/were outstanding.
- **E.** Limitations on Project Development. Notwithstanding anything herein to the contrary, the Authority shall not be obligated to pursue or complete development of the Project if the funds available from the County together with other lawfully available and designated funds are insufficient to pay all costs associated with the Project and the County fails to provide additional funding to cover the amount of any such deficiency.

### III. DUTIES AND OBLIGATIONS OF THE COUNTY

- A. Project Responsibilities of the County. The County shall be responsible for the costs of those responsibilities as enumerated within **EXHIBIT B** to this Agreement. The Authority will invoice the County monthly, based on work performed, but will include the County's Transportation Planner in the invoicing process in an effort to minimize the payment timeline. Each invoice shall state the total invoiced amount and shall be accompanied by a detailed itemization of services and expenses. The County shall pay such invoices within fifteen (15) days after the receipt of a properly submitted invoice, or sooner, if possible. Under no circumstances shall invoices for the Project exceed the amounts identified in **EXHIBIT C**.
- **B. Financial Obligations of the County.** Authority financial obligations created hereunder shall be limited solely to County funds transferred from time to time by the County to the Authority as required by this Agreement. Except for delivery of the funds enumerated herein, the County shall have no financial obligation to make any payment, in whole or in part, on behalf of the Authority, unless specifically provided in accordance with the terms of this Agreement, its exhibits or amendments. In the event the County experiences a diminution in funding from Federal, State, or local sources during the contract term, County may terminated all or part of this Agreement. All County obligations shall be paid out of current revenues. No interest or sinking fund has been established in relation to any obligation established by this Agreement.
- C. Disclosure of Information. The County covenants and agrees that it shall cooperate with the Authority to ensure the timely completion of the Project within specified and agreed upon budgets and shall promptly provide the Authority with such information or support as may be necessary for the Authority to satisfy its obligations under this Agreement. The County reserves the right to adjust, as necessary, the service level during the term of this contract. This includes any adjustment necessary in vehicles allocated to perform this Service.
- D. The County reserves the right to transfer its interest and obligations in this Agreement to another entity, provided that entity receives designation from the State of Texas to be a direct recipient of state grant funds. The County will provide thirty (30) days notice to the Authority prior to transferring its interest in this Agreement.

### TRANSIT OPERATIONS SERVICES PROJECT DESCRIPTION

The scope of work for the Project consists of those activities required for the Authority to provide operations services to the County for the County's regional transit system for a period of five (5) years. The Project will include Ramp Up and Operations phases.

The Ramp Up Phase will include the Authority's completion of the procurement process necessary for the selection of one or more transit operations providers. This process will include input from, and coordination with, the County but shall be limited by the Project Budget identified in **EXHIBIT** C. Recognizing that the parties intend to utilize federal funds provided to the County, the procurement will be completed pursuant to and in accordance with federal requirements. The County has caused to be prepared a draft Request for Proposal (RFP) that the Authority intends to utilize in its selection of one or more providers. The RFP, among other elements, identifies proposed requirements of the County for the service provider, along with scoring and minimum provider experience requirements. The Authority shall issue the RFP following Authority procurement processes but will include individuals identified by the County in the selection process. Following issuance of the RFP, the Authority shall perform all tasks required to complete the procurement process, including but not limited to, receiving and responding to questions from interested providers, issuing addenda to the RFP, if any, publishing all necessary documentation related to the RFP on the Authority's website, receiving provider proposals, verifying provider references, if necessary, and verifying responsiveness of responses (e.g., responses include all required forms and certifications). Upon identification of a recommended provider, the Authority shall provide such information to the County; however, the final selection of a provider is the responsibility of the Authority.

The Operations Phase will commence upon the execution of an agreement between the Authority and the selected operations provider(s), at which point the Authority shall be responsible for assuming the operations of the County's regional transit system. While operations will be largely consistent with the services outlined within the RFP, a more defined scope of services for such operations activities will be developed between the County and Authority, with input from the selected operations provider(s). This expanded scope of work will be added to this Agreement via amendment at that time.
